Notes to the Condensed Consolidated Interim Financial Statements

For the three and nine months ended July 31, 2022 and 2021 (Expressed in Canadian dollars - Unaudited)

1. DESCRIPTION OF BUSINESS

Silver Spruce Resources Inc. (the "Company") is a public company domiciled in Canada and was incorporated in Alberta on May 8, 1996 under the name First Labrador Acquisitions Inc. The Company changed its name to Silver Spruce Resources Inc. on October 22, 2004. The Company's operations consist of the exploration for precious and base minerals. The registered office of the Company is Suite 440, 1600 Bedford Highway, Bedford, Nova Scotia, B4A 1E8. The Company's common shares are listed for trading on the TSX Venture Exchange under the symbol "SSE", the OTCQB under the symbol "SSEBF and the Frankfurt Stock Exchange under the symbol "S6Q".

2. BASIS OF PREPARATION AND GOING CONCERN

Statement of compliance

The condensed consolidated interim financial statements of the Company are unaudited and have been prepared in accordance with IAS 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the interpretations of the IFRS Interpretations Committee. In preparing the interim financial statements, the same accounting principles and methods of computation have been applied as in the annual financial statements for the year ended October 31, 2021. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods have been made. The condensed interim consolidated financial statements of the Corporation were approved by the Board of Directors on September 14, 2022.

These condensed consolidated interim statements should be read in conjunction with the Company's consolidated annual financial statements for the year ended October 31, 2021.

Basis of presentation

The condensed consolidated interim financial statements of the Company have been prepared in accordance with IFRS on a going concern basis which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company is an exploration stage company and does not have any proven economically recoverable reserves on the Company's interest in mineral properties held for exploration and to date, the Company has not earned revenues from mining activities and does not have a firm timeline until such revenues can be reasonably expected to be realized. The Company's interests in exploration properties are subject to increases in taxes and royalties, renegotiation of contracts, currency exchange fluctuations and restrictions, and political uncertainty.

The Company's continued existence is dependent upon the discovery of economically recoverable reserves, the ability of the Company to raise additional financing, or future profitable production. It is not possible to predict whether financing efforts will be successful.

Although the Company has taken steps to verify title to mineral exploration properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to

2. BASIS OF PREPARATION AND GOING CONCERN (continued)

Basis of presentation (continued)

unregistered prior agreements or transfers, First Nations claims, non-compliance with regulatory, social and environmental requirements and may be affected by undetected defects.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health development, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. So far, the pandemic's effect on the Company has been minimal. The Company has raised over \$3,800,000 with three private placements since the onset of COVID-19 and increased its exploration activities. However, the economic downturn could have a negative effect on the Company's ability to raise funds in the future, which could adversely affect future exploration.

While the condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, several adverse conditions, however, cast significant doubt on the validity of this assumption. The Company has incurred a net loss of \$1,305,071 during the three quarters ended July 31, 2022, has an accumulated deficit of \$44,242,109 and has no source of revenue. The Company was successful in raising funds during the previous year and the current quarter, which resulted in a working capital surplus of \$92,677 as at July 31, 2022. The first phase of the ongoing private placement closed during the current quarter raising gross proceeds of \$117,250 and phase two is currently under way. Although the Company has been successful in raising funds in the past, there is no assurance that it will be able to successfully complete further financings. These conditions indicate the existence of material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying consolidated financial statements. Such adjustments could be material.

3. SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements are prepared in accordance with IFRS and follow the same accounting policies and methods of their application as the most recent audited financial statements for the year ended October 31, 2021. These financial statements should be read in conjunction with those consolidated financial statements.

4. CAPITAL MANAGEMENT

The capital structure of the Company currently consists of share capital, warrant reserve and equity reserve. As at July 31, 2022, managed capital was \$111,597 (October 31, 2021 - \$1,160,897). The Company's objective when managing capital is to maintain adequate levels of funding to support the acquisition, exploration and development of mineral properties. The Company manages its capital structure in a manner that provides sufficient funding for operational activities.

Notes to the Condensed Consolidated Interim Financial Statements

For the three and nine months ended July 31, 2022 and 2021

(Expressed in Canadian dollars - Unaudited)

4. CAPITAL MANAGEMENT (continued)

The properties in which the Company currently has an interest are in the exploration and evaluation stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. Funds are primarily secured through equity capital raised by way of private placements. There can be no assurances that the Company will be able to continue raising equity capital in this manner.

The Company invests all capital that is surplus to its immediate operational needs in short-term, liquid and highly rated financial instruments, such as cash, held with major Canadian financial institutions. The Company reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period.

5. FINANCIAL RISK FACTORS

A summary of the Company's risk exposures as it relates to financial instruments are reflected below:

a) Credit risk

The Company's credit risk is primarily attributable to cash and other receivables. The Company's cash is held with highly rated financial institutions.

The Company has concluded that credit risk with regards to other receivables, except Mexican VAT receivable on which the Company has recorded an allowance, is minimal.

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure as described in Note 4. The Company has no income from operations or a regular source of cash flow and relies on equity funding to support its exploration and corporate activities. Should the need for equity funding arise, there is a risk that the Company may not be successful in selling new common shares at acceptable prices.

As at July 31, 2022, the Company had a cash balance of \$356,412 (October 31, 2021 - \$1,178,421) and HST and other receivables of \$151,574 (October 31, 2021 - \$202,226) to settle current liabilities of \$436,205 (October 31, 2021 - \$289,849). Of the Company's current financial liabilities, \$384,149 (October 31, 2021 - \$239,628) have contractual maturities of less than 30 days and are subject to normal trade terms. The second tranche of the Company's private placement announced on June 3, 2022 is currently ongoing.

c) Market risk

Interest rate risk

The Company has no loan payable, therefore, the Company is not subject to interest rate risk. The Company invests any cash surplus to its operational needs in investment-grade short- term deposit

Notes to the Condensed Consolidated Interim Financial Statements

c) Market risk (continued)

Interest rate risk (continued)

certificates issued by highly rated Canadian banks. The Company periodically assesses the quality of its investments and is satisfied with the credit rating of the bank.

Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. However, the Company has operations outside of Canada, and therefore could be at risk for currency translations. The Company's property acquisition obligation (Note 7) is denominated in United States Dollars ("US\$") and is subject to fluctuations in that currency's value relative to the Canadian dollar. The value of the obligation at July 31, 2022 is \$32,060 (US\$25,000), therefore a 10% rise or fall in the Canadian dollar against the US dollar would have resulted in a decrease (increase) of \$3,260 in the net loss.

There were no significant changes to credit risk, liquidity risk and market risk during the periods ended July 31, 2022 and 2021.

d) Fair value

The carrying amounts for cash, HST and other receivables, trade payable and accrued liabilities, and property acquisition obligation on the condensed consolidated interim statements of financial position approximate fair value due to their short-term maturity.

6. HST AND OTHER RECEIVABLES

HST and other receivables comprise of:

2022	2021
\$	\$
107,310	89,696

The Mexican Government does not reimburse the VAT paid on expenses incurred. This tax receivable will be applied against future VAT payable if the Company earns revenue from mining activities in Mexico. The Company has therefore recorded an allowance against this VAT receivable, which will be reversed in the future if the Company earns taxable revenue in Mexico.

7. MINERAL EXPLORATION PROPERTIES

a) Pino de Plata, Mexico

On February 29, 2016, the Company signed an amended agreement that supersedes the original purchase agreement and enables the Company to purchase a 100% interest in the Pino de Plata property. The revised financial terms are as follows:

- Total cash payments reduced from US\$1,000,000 to US\$500,000 over two years (US\$125,000 (\$168,459) paid);
- One share issuance of 2,500,000 common shares, issued on June 15, 2016 and valued at \$0.07 per common share based on the quoted market value of the common shares on that date. One payment of \$250,000 to be paid in common shares in lieu of cash, at a share price equal to the 20-day average closing price of the Company's shares on the TSXV, subject to exchange approvals;
- A three percent (3%) gross production royalty capped at US\$4,000,000, which can be purchased for US\$1,333,333 per percentage point at any time and are reduced by the total amount of advanced royalty payments; and
- The Company is subject to advanced Royalty payments of US\$10,000 per month to commence
 30 days after the acquisition is finalized, registered and documented with the proper authorities.

As a result of a delay in being able to access the property, an addendum to the purchase agreement was made in November 2016 to suspend the terms of the agreement until access is gained to the property. Access was granted again in June 2018 but has been revoked in June 2019 and according to the terms of the Agreement remains under force majeure. The ongoing interest in the property is subject to satisfactory resolution of the access restriction. In June 2020, the Company engaged a Mexican legal counsel to engage in discussions with landowner representatives. Negotiations remain ongoing as of the current date.

On November 7, 2019, the Option Agreement with the concession title owner was fully processed by the Registro Publico de Mineria (Public Mining Registry).

The Company's minimum commitment as at July 31, 2022 has been recorded as property acquisition obligation on the statement of financial position in the amount of \$32,060 (US\$25,000) (October 31, 2021 - \$30,960 (US\$25,000)). The Company has no required minimum work expenditures in the contract during the period and is up to date with the cash and share amounts payable to the vendors with the remaining deferred payments subject to the terms of the force majeure clause in the agreement. The Company remains current on payment of the requisite property taxes on Pino de Plata.

7. MINERAL EXPLORATION PROPERTIES (continued)

b) Melchett Lake, Ontario

In September 2019, the Company signed a binding letter of intent with three parties to acquire 100% of the Melchett Lake zinc-gold-silver volcanogenic massive sulphide (VMS) project, an advanced precious and base metal project in the Thunder Bay mining district, Northern Ontario, Canada.

After completing due diligence, the Company entered into a purchase agreement on November 20, 2019 to acquire 100% of the property. As consideration, the Company will pay the vendors \$150,000 in cash and 5,000,000 common shares of the Company, spread over three years. As of July 31, 2022, the Company has paid \$100,000 to the vendors and has issued 500,000 common shares valued at \$0.04 per shares, 1,000,000 common shares valued at \$0.06 per shares and 1,500,000 common shares valued at \$0.05 per share to the vendors.

Given the logistical constraints due to the COVID-19 pandemic, the purchase agreement was amended on November 20, 2020, to modify the exploration expenditures for the first two years of the agreement as follows: Minimum work expenditures total \$1,000,000, with \$50,000 during the first year, \$250,000 in the second year and \$700,000 prior to the third anniversary. The vendors will retain a 2% net smelter return royalty, of which 1% can be purchased by the Company for \$1,000,000 and the remaining 1% at market price.

The Company has met the minimum work expenditures outlined in the contract during the current period and is up to date with the amounts payable to the vendors.

The Phase 1 winter exploration program was initiated during the second quarter of fiscal 2021, though the surface exploration was delayed to accommodate the negotiation of two First Nations agreements (as noted below), forest fires, COVID-19 issues and further discussions with three additional First Nations.

The Company entered into two exploration agreements, in March 2021 and September 2021, by which Aroland First Nation and Ginoogaming First Nation respectively, in exercising their inherent jurisdictions, have issued their permits and approvals to Silver Spruce to undertake mineral exploration in part of their territory known as Melchett Lake. The Company signed a contract on January 25, 2022, with Western Heritage to prepare an independent cultural and archeological study on Aroland and Ginoogaming territories, and conducted the first site visits in August 2022. Interpretation of the compiled geophysics for the project history was contracted in the previous quarter and preliminary results were received in July 2022.

The 3-year operating permits for ground exploration were received from the Ontario Ministry of Energy, Northern Development and Mines (ENDM) on January 14, 2022. The winter program started in 2021 has been rescheduled to Q2 2023. The inability to hire contractors and service operators to conduct the field exploration aspects of the project on a timely basis during the past year have proven to be an ongoing issue.

c) El Mezquite, Mexico

On June 9, 2020, the Company signed a binding Option Agreement with Colibri Resource Corp. to acquire 50% interest in its wholly owned Mexican subsidiary Yaque Minerals S.A. de C.V. which holds the El Mezquite Gold project.

As consideration, the Company has paid US\$82,500 before September 1, 2020, US\$27,500 before September 30, 2021 and will defer payment of US\$100,000 to September 30, 2022 as per an amendment to the Agreement with the Vendor and will also reimburse Colibri Resources Corp, \$500,000 for 50% of its debenture due in October 2023.

Minimum work expenditure total US\$600,000 over the four-year term of the agreement by September 1, 2024, with no specific annual requirement. During the period of the option, the Company will be responsible for 100% payment of the surface rights agreements when exploration is active, 50% of the property taxes and 50% of the interest due at 2.5% annually on the debenture.

The Company has carried out Phase 1 exploration mapping and analysis in three separate campaigns during 2020 and 2021. The Company also contracted a LiDAR survey on the El Mezquite property which was completed in May 2021. A maiden 2,485 meter drill program was completed from June 2, 2021 to August 5, 2021. GIS compilation of the data was updated and an environmental report for additional drill permitting was contracted in December 2021. The drilling permit was received from SEMARNAT in March 2022. Permitting and planning for a Q4 2022 /Q1 2023 program awaits a land access agreement for ranches of the western area of the property.

d) Jackie, Mexico

On November 17, 2020, the Company signed a Definitive Agreement with Colibri Resource Corp. to acquire 50% interest in the Jackie Gold Project in Sonora, Mexico.

As consideration, on December 14, 2020, the Company issued 500,000 common shares at a price of \$0.05 per share to Colibri and on January 5, 2021, paid US\$25,000. The Company issued another 500,000 common shares at a price of \$0.05 per share on November 24, 2021 and paid another US\$25,000 on November 21, 2021. All required cash and share payments are paid in full.

There is a minimum work expenditure total of US\$100,000 over two years, with a minimum of US\$50,000 within 12 months of the TSX approval. During the period of the Option, the Company will be responsible for 100% payment of the surface rights agreements when exploration is active and 50% of the property taxes.

The Company has met the work expenditure target during the last quarter and a joint venture agreement was signed in April 2022 for future exploration activities.

An environmental report for trenching and drill permitting was contracted in December 2021. The trenching and drilling permit was received in February 2022 though no work has been completed. Permitting and planning for a Q4 2022 or Q1 2023 program remains under discussion.

e) Diamante, Mexico

The Company completed its due diligence site visit to the Diamante 1 and 2 properties during March and April 2021 after signing the Letter of Intent with Colibri Resource Corp.

On April 27, 2021, the Company signed a Definitive Agreement with Colibri Resource Corp. and its wholly owned Mexican subsidiary, Yaque Minerales, to acquire 50% interest in the Diamante 1 and Diamante 2 Au-Ag concessions in Sonora Mexico.

As consideration, to earn its initial 25% interest in the Property, on May 8, the Company paid an initial cash amount of US\$75,000, directed to the Vendor's US\$100,000 initial property payment whereupon Silver Spruce and Yaque each will hold a 25% interest in the Property and manage the Property as equal partners ("Partners").

Silver Spruce will be the designated operator of the Property during the earn-in period with the Vendor. The Partners will direct the exploration program via a Project Oversight Committee.

To earn its initial 50% of the Diamante project, Silver Spruce and Yaque also agree to design, permit and drill a minimum of 2,000 metres on the Property within 24 months from the Execution Date of Yaque's final agreement with the Vendor; including any requisite exploration leading to the drill program, submit a final drilling report to meet NI 43-101 reporting guidelines and pay approved exploration costs at a ratio of Silver Spruce (75%) and Yaque (25%).

The Partners will pay to the Vendor 50% of the bi-annual property taxes and surface rights payments.

Upon completion of the initial earn-in, Silver Spruce and Yaque will become equal joint venture partners with the Vendor in BIMCOL, a private Mexico company holding the concessions, pay to the Vendor 50% of the bi-annual property taxes and surface rights payments and pay approved prorata exploration costs at a ratio of Silver Spruce (50%) and Yaque (50%).

Geological field activities were engaged during the first quarter. GIS compilation of the data was updated and remains ongoing through the next quarter. An environmental report for drill permitting was contracted in December 2021. The permits were received in March 2022.

The Company has signed contracts with heavy equipment and drilling services companies for a drilling program to start by the end of May 2022. In June 2022, the Phase 1 program initiated 2,000 metres of reverse circulation drilling on two first priority targets at El Pillado and La Prieta and this work is ongoing at the time of reporting

7. MINERAL EXPLORATION PROPERTIES (continued)

f) Mystery, Marilyn and Till Properties, Newfoundland and Labrador

In August 2021, the Company signed a binding letter of intent with two parties to acquire 100% of the three early-stage gold exploration properties, Mystery, Till and Marilyn located near Grand Falls, Newfoundland, Canada.

After completing due diligence, the Company entered into an option and purchase agreement on September 7, 2021 to acquire 100% of the properties. As consideration, the Company will pay the vendors \$615,000 in cash and 10,000,000 common shares of the Company, spread over five years. The Company also has to pay a finders fee of 7% of the total amount of cash paid, and issue 7% of the common shares issued to the vendors in parallel with the payment schedule for the vendors.

Minimum work expenditure total \$1,500,000 over the five-year term of the agreement by September 7, 2026, with \$150,000 during the first year, \$200,000 during the second year, \$250,000 during the third year, \$300,000 during the fourth year and \$600,000 during the fifth year. The vendors will retain a 2% net smelter return royalty, of which 1% can be purchased by the Company for \$2,000,000 and the remaining 1% at market price.

The Company has paid the vendors \$40,000 cash and issued 1,000,000 common shares valued at \$0.04 that were due upon the TSX's approval of the agreement. The Company also issued 70,000 common shares valued \$0.04 per shares and paid \$2,800 as finders fees.

Geological field activities were engaged during the first quarter. An airborne survey was completed in November 2021 through January 2022 and the report was received in March 2022. Ground sampling was underway during November and December 2021 and the work will be restarted and completed during the upcoming quarter pending spring weather conditions. A second phase field program was initiated in Q3 2022 and the program is ongoing at the time of reporting. Results from the 2021 sampling were received in April 2022. Results from 2022 samples are pending. Data interpretation is ongoing and awaits completion and analysis of the remaining samples. GIS compilation of the data remains ongoing through the next quarter.
